

MID-COAST WATER

CONSERVATION CONSORTIUM

Help save water word search

Being smart about how we use water will help make sure there is enough for our communities and environment to stay healthy. Try these tips at home and test your knowledge on ways to save water! Below are hidden eleven words.

- Take short **showers**. Play a 4-minute song to keep time!
- Save **water** by turning off the **tap** while you brush your teeth.
- Tell an adult if the **toilet** is not working right. The fix could help **conserve** water.
- Helping out with chores? Only run the **dishwasher** when there is a full load.
- Be a **leak** detective. Check that your **faucet** does not **drip**.
- Visit midcoastwater.org for more water **savings** ideas indoors and in the **yard**.
